

Where our **SERVICE** is the best **PART!**

## **Our Response to Covid-19 Virus – Please Read.**

Due to the Covid-19 Virus and the governors request for non-essential businesses to remain closed, we have decided to close our doors to walk-in customers as we want to do our part in keeping our customers and employees safe.

We can still be contacted by any of these methods:

By email: [asap@partsfortechs.com](mailto:asap@partsfortechs.com)

By cell phone: 717-274-9396

By website: [www.partsfortechs.com](http://www.partsfortechs.com)

For after-hour emergencies, call: 717-679-1370

However, as we are an e-commerce business that supports emergency power equipment for health care facilities and other critical back-up systems, we are committed to help those who may have emergencies.

If you are unable to wait for emergency parts to be shipped to you, we can make arrangements for you to get your parts another way. Please contact us to discuss options.

Note: We do have limited staff here, working on filling and shipping parts orders for our online customers.
